About Pandora

PANDORA - NEW OPPORTUNITIES

Pandora is more than the name of a legendary figure with a renowned box. It is also the name of a new bracelet which now is available at the jeweller.

PANDORA ENTERS THE US MARKET

Pandora Jewelry enters the US market with its series of high quality sterling silver and 14k gold jewelry. Pandora Jewelry has had great success in the Northern European markets with its exclusive and elegant designs combined with a unique product range. Pandora Jewelry is the biggest jewelry success ever in this market and we expect to experience the same on the US market.

AN ENTIRE NEW SYSTEM

The Pandora bracelet is unique and versatile, due to the wide selection of beads, as well as its threaded design. Each bracelet is divided by small threads into three sections. Each bead is equipped with interior threads, which allows you to screw individual beads into the desired section in the selected order. The beads can then move freely and rotate slightly with your wrist's movement. The effect is stunning! The Pandora bracelet looks great worn with every style-from jeans to formal attire. Each bracelet is as unique as the woman who wears it!

The basic bracelet with threads costs \$17., small attachments \$5., and the beads from \$13.

According to the Greek mythology Pandora was a woman who was created by Hefistos and sent to Earth because Prometheus had stolen fire and given it to mankind. With her she had been given a box and when she opened it, all the evils of the world flew out. Left were only hope and opportunities. Hence the expression 'Pandora's Box' and the name of the bracelet with the many opportunities from Pandora Jewelry, which right now is available at the jeweller.
